

# Tutorials

One of the most discussed topics during the Legends on Tour 2019 Summit was *"New players"*.

One of the aspects that were raised is the lack of easy tutorials for this target group.

## Goal

We want to give players the opportunity to get easy access to basic information about the game. In addition, we want to provide Alliance leaders with a certain amount of material which will spare them time by explaining basic things to those players who are approaching the game for the first time.

## Changes

Together with the members of the Ambassador Program we will first select a list of topics on which new players have the biggest number of questions. The next step will be creating a selection of videos (max length of 30 to 40 seconds) where those topics are explained step by step.

## Conclusion

We hope to have the first series of videos ready by the end of the year. Ideally they will be published on the Travian: Legends YouTube Channel and streamed on the forum in a static page available for all domains.
